PAI glossary:

PAI 1, 2, 3, 8 and 9: The template contains information on both absolute and relative values on the indicators. Calculation of relative values are explained further below.

PAI 1, 2, 8 and 9: Total outstanding amount of bonds issued by Jyske Realkredit are used as a numerator. This is used instead of our Enterprise value, since an investor can owe more bonds than the Enterprise value of Jyske Realkredit.

PAI 3: The number for Jyske Realkredit's Revenue will be equal to the Core income of Jyske Realkredit.
