## The currency, nominal value and number of the Bonds

The bonds are issued in Danish kroner (DKK) with a face value of 0.01 (unit size). The bonds are fixed-rate and convertible at price 100. The Bonds are amortized at drawing/redemption at par concurrently with the ordinary repayment of the loans financed by the Bonds. The general repayment of the underlying loans may be made as annuity loans or as a bullet loan (interest-only periods). The latter amortization form may only be used for 10 years of the loan's term.

# The rights associated with the Bonds

The Bondholders will together with other holders of mortgage credit bonds and covered bonds as well as Privileged Derivative Counterparties have a primary preferential right (after deduction of expenses relating to the administration of the estate in bankruptcy and similar expenses) to all the assets in the capital centre through which the relevant ISIN code was issued, and subsequently a primary preferential right to Jyske Realkredit in general (also after deduction of expenses relating to the administration of the estate in bankruptcy and similar expenses) in pursuance of the provisions of the Danish Mortgage-Credit Loans and Mortgage-Credit Bonds etc. Act.

The relative seniority of the Bonds in the issuer's capital structure in the event of insolvency, including information of their place in the order of priority and the potential effect on the investment in the event of resolution within the framework of the **BRRD** Directives

If Jyske Realkredit goes bankrupt, the funds in a capital centre will be applied - after payment of costs for administration of the estate, etc. - to payment of claims from the Bondholders as well as Privileged Derivative Counterparties with the same preferential position as the Bondholders. Bankruptcy does not constitute an event of default. The trustee must to the extent possible continue to make the payments without changes. If the full amounts due cannot be paid on the due date, the Bondholders and Privileged Derivative Counterparties shall retain their claims and preferred rights. At worst, it can only at the final statement of the estate in bankruptcy be clarified to which extent the Bondholders Privileged Derivative Counterparties can have their unpaid claims covered.

If Jyske Realkredit is under resolution within the framework of the BRRD Directives (2014/56/EU and 2019/879/EU), the resolution authority shall seek to resolve Jyske Realkredit in the most appropriate way by using the possible tools available. This may, for instance be the sale of a capital centre to a third party, transfer to a temporarily state-owned company. Mortgage credit institution and hence the Bonds are not subject to obligations to write down/convert (bail-in).

Once a year, Jyske Realkredit submits a recovery plan to the FSA. The recovery plan includes a number of indicators that must continuously be complied with and be included in the reporting. The recovery plan must ensure timely intervention in order to secure the recovery of the institution. If recovery is not possible, the resolution authority has a series of options available for intervention and takeover of the institution to ensure financial stability.
